LEAVING A MARK

STORIES OF THE UNSTOPPABLE JESUS

Mark 12:18-27

1. Quick Facts About The Sadducees

- They were in charge of the temple.
- They were very wealthy.
- They only accepted the Law of Moses.
- They deny the existence of angels.
- They deny that there is life after death.
- They believed that God was not concerned with people.

As a result, the life of a Sadducee revolved around anything political, material and temporal.

If you really believed in a God that cared and if you really believed that after you died you would stand in front of Him it should make you a lot less focused on all that is political, material and temporal.

2. Marriage is Momentary.

- God designed earthly marriage to point to a heavenly reality.
- God designed earthly marriage to provide for earthly needs.
